

INVEST IN VIDEO CONFERENCING TECHNOLOGY

At North Main Systems, we're helping organizations and government institutions leverage video conferencing technology in innovative ways to save time, reduce costs, and operate more efficiently.

NUMEROUS BENEFITS

The real-world benefits and opportunities video conferencing creates are far too valuable to ignore.

USE CISCO VIDEO TO:

1 Lower operational costs	2 Improve decision making	3 Eliminate distance	4 Enable innovation
Increase productivity and efficiency through more impactful meetings and sharing capabilities	Make quicker decisions by connecting face-to-face with anyone and avoiding miscommunications	Bring people, customers, and departments together across distances as if they were in the same room	Change or modernize the way you deliver services to create efficiencies while saving both time and money

PROVEN CASES

The use cases for video conferencing are expanding into countless industries and institutions. These are delivering both hard and soft benefits far beyond the lower travel costs historically associated with video conferencing.

Courthouses and Jails

- ◆ Limit the need to transport inmates to courtrooms
- ◆ Call remote witnesses with high-def video and sound
- ◆ Connect law enforcement to remote departments

Healthcare

- ◆ Enable video visitation of patients by loved ones
- ◆ Connect patients to specialists anywhere
- ◆ Provide remote consultations and follow-up
- ◆ Improve collaboration within administration

Schools

- ◆ Create more engaging classroom experiences
- ◆ Offer distance learning programs to students
- ◆ Connect teachers and administrators throughout the district

B2B/B2C Business

- ◆ Connect remote employees to activities and trainings
- ◆ Streamline the hiring and interview process
- ◆ Grow your sales reach and connect face-to-face with customers anywhere

A SUCCESS STORY FROM ONE OF OUR CLIENTS

Although we've helped many types of organizations benefit from video conferencing, we've found that it has had a major impact within our local counties.

A local county in Indiana

With Cisco WebEx video conferencing technology, we helped a local county implement high quality video and sound in their jails and courtrooms to save time, money, and increase safety for their citizens.

Less burden on Sheriff's office resources

Improved safety through less inmate transportation

Lower costs and time associated with court proceedings

Improved ability to connect with remote departments

THE VALUE OF A PARTNER LIKE NMS

Video is becoming one of the next big disruptors. Let us help you be on the forefront with a cost-effective solution that has the capacity to grow and scale along with your needs.

- ◆ An honest, customer-first approach
- ◆ Expertise and experience in a variety of industries
- ◆ Security is a consideration in everything we do
- ◆ Cisco Premier Partner
- ◆ Certified Women's Business Enterprise

VIDEO CONFERENCING CAN MAKE AN IMPACT FOR YOU!

Schedule a free consultation today. We'll answer your questions, provide demos, and share how we've helped organizations like yours save time and lower costs with video conferencing technology.
